

mainline intelligence

the new wave of pyx - premium experiences, free to reach.

welcome to the list

hey - thanks for joining. this is the first mi newsletter: a short welcome, what's live right now, and what's coming next. no ads. we pinky-swear. (we've already done enough crimes against your attention span.)

latest news

mi moderator - live

check a word or phrase with `GET /moderator/check/<text>`. response shape: `{"appropriate":false,"score":"700"}`. score is 0-1000; default threshold 700. drop it into games and chat.

marii - coming soon

mainline artificial realtime instant intelligence. instant when it matters, realtime when the world moves - built for creators and players who won't wait on a spinner. instant responses. real data. all free.

mci - coming soon

mainline conversational intelligence: the industrial evolution of pyx. deeper context, stronger reliability, studio-grade dialogue for teams that ship.

dev corner

tools are up on the site: moderator try-it, pyx studio, captcha training, talk / code / speak, and api health. home base: <https://pyx-ai.web.app/mainlineintelligence>

more soon. stay curious - mi
