

mainline intelligence

the new wave of pyx - premium experiences, free to reach.

welcome to the list

hey - thanks for joining. this is the first mi newsletter: a short welcome, what's live, what's coming, and our first public beta. no ads. we pinky-swear. (we've already done enough crimes against your attention span.)

latest news

mi moderator - live

GET /moderator/check/<text> -> {"appropriate":false,"score":"700"}. score 0-1000; default threshold 700.

marii - coming soon

mainline artificial realtime instant intelligence. instant responses. real data. all free.

mci - coming soon

mainline conversational intelligence: industrial evolution of pyx for teams that ship.

betas - pyx assistant (first public beta)

powered by marii. extremely early version and still being improved. try it: <https://pyx-ai.web.app/betas/>

dev corner

moderator try-it, pyx studio, captcha training, talk/code/speak, and api health live at <https://pyx-ai.web.app/mainlineintelligence>

more soon. stay curious - mi
